

FEMA REGION III MITIGATION COFFEE BREAK WEBINARS

FEMA Region III is hosting a webinar series for hazard mitigation planners and other partners interested in reducing risk in their communities. These “Coffee Breaks” are hour-long webinar sessions hosted every other month to provide mitigation best practices and highlight the work happening at federal, regional, state, and community levels to reduce risk across the region.

The Coffee Breaks are open to everyone involved in hazard mitigation, resiliency, or risk reduction planning in the public and private sectors, which includes community planners, emergency managers, floodplain managers, GIS technicians, government officials, contractors, and anyone else involved in the development and implementation of hazard mitigation and risk reduction strategies.

INTEGRATING EPA PROGRAMS AND HAZARD MITIGATION PLANNING

The Environmental Protection Agency (EPA) and FEMA have launched a new partnership to collaborate on projects, such as Green Infrastructure Planning, Green Infrastructure Workshops, and integrating Watershed Plans with local Hazard Mitigation Planning. Join us as we discuss the shared goals of these programs as well as new funding opportunities available at the local level.

WHEN: October 30, 2019
11:00 am – 12:00 pm EDT

**INCORPORATING HISTORIC AND CULTURAL
RESOURCES IN YOUR HAZARD MITIGATION PLAN**

WHEN: January 15, 2020
11:00 am – 12:00 pm EDT

Most communities in Region III have identified historic and cultural resources that should be considered when defining risk. In your community, how are these resources being incorporated into your local Hazard Mitigation Plan? Are you able to use this integration successfully to enhance mitigation opportunities and leverage funding? This Coffee Break will

explore what State Historic Preservation Offices can bring to the planning team and highlight some examples from across the Region.
