

NATIONAL EARTHQUAKE CONFERENCE

Advancing State Earthquake Programs to Reduce Seismic Risk and Save Lives

This week's **2020 National Earthquake Conference** featured plenary session is *Advancing State Earthquake Programs to Reduce Seismic Risk and Save Lives*.

Presenters include:

Maximilian Dixon, MUP, MIPM, CEM

Maximilian is the Hazards and Outreach Program Supervisor at Washington State Emergency Management Division. As a former earthquake program manager, he will discuss their role in saving lives and the keys to collaboration.

Amanda Siok

Amanda is an Earthquake, Tsunami, and Volcano Program Manager at FEMA Region X. Her presentation will focus on the information emergency managers and land use planners need from engineers and scientists to make informed decision-making

Robert Ezelle

Robert is the Director at Washington State Emergency Management Division. Robert will present the Cascadia Rising 2022 Exercise Series Outreach Program.

Vance Taylor

Vance is the Chief for the Office of Access and Functional Needs at the California Governor's Office of Emergency Services and Principal at Catalyst Partners, LLC. His presentation is titled *Whole Community Integration - We're in it Together!*
