## FEMA REGION 3 MITIGATION COFFEE BREAK WEBINARS

FEMA Region 3 is hosting a webinar series for hazard mitigation planners and other partners interested in reducing risk in their communities. These “Coffee Breaks” are hour-long webinar sessions hosted every other month to provide mitigation best practices and highlight the work happening at federal, regional, state, and community levels to reduce risk across the region.

The Coffee Breaks are open to everyone involved in hazard mitigation, resiliency, or risk reduction planning in the public and private sectors, which includes community planners, emergency managers, floodplain managers, GIS technicians, government officials, contractors, and anyone else involved in the development and implementation of hazard mitigation and risk reduction strategies.

### EXPLORING FEMA'S HAZARD MITIGATION PLANNING GUIDANCE AND RESOURCES

From planning guidance to resource toolkits, FEMA Region 3 has a vast array of materials available to help you mitigate hazards in your community. However, with so much available, it can be challenging to identify when and how to leverage each resource during the hazard mitigation planning process. This webinar will explore federal guidance and resources available to help communities prepare or update a Hazard Mitigation Plan.

**WHEN:** January 13, 2021  
11:00 am – 12:00 pm ET

### CONNECTING CLIMATE CHANGE TO HAZARD MITIGATION PLANNING

**WHEN:** March 17, 2021  
11:00 am – 12:00 pm ET

Communities throughout FEMA Region 3 are no stranger to the increasing frequency and severity of natural disasters caused by climate change. Intense storms, heat waves, and extreme flooding all significantly challenge our communities and result in cascading impacts that we need to better prepare for. This webinar will explore where to get data on climate change and how to effectively support mitigation through incorporating this data into hazard mitigation planning efforts.
