

FY 2020 Selections

For Building Resilient Infrastructure and
Communities (BRIC)
and Flood Mitigation Assistance (FMA)

FEMA Announces Selections for the Fiscal Year 2020 Building Resilient Infrastructure and Communities and Flood Mitigation Assistance Funding

Today FEMA is announcing the subapplications selected for the \$700 million being made available in Fiscal Year 2020 (FY20) for [Building Resilient Infrastructure and Communities \(BRIC\)](#) and [Flood Mitigation Assistance \(FMA\)](#) grant programs.

These competitive programs provide funding to states, tribes, territories and local governments for eligible mitigation activities to strengthen our nation's ability to reduce disaster losses and make our nation more resilient.

Over the last several months, FEMA reviewed subapplications to ensure that they are eligible, long-term, cost-effective, and technically feasible in reducing the impacts of hazards. A subapplication can be determined as one of three categories: "Identified for Further Review", "Not Selected" or "Does not Meet HMA Requirements".

FEMA regions will work with applicants to conduct programmatic reviews of the selected "Identified for Further Review" subapplications before making a final decision for funding.

For additional information or to ask questions, grant applicants should contact their FEMA regional office. More information about Hazard Mitigation Assistance is available at www.fema.gov/hazard-mitigation-assistance.

For the status of FY20 subapplications, applicants can review grant selections online at:

Building Resilient Infrastructure and Communities: <https://www.fema.gov/grants/mitigation/building-resilient-infrastructure-communities>

Flood Mitigation Assistance: <https://www.fema.gov/grants/mitigation/floods>
